

Features

- Surface Mount Crystal
- 1.3 mm thickness, Resin Sealed
- Excellent Solderability

General Specification

Frequency Range	6.000 ~ 84.000 MHZ
Frequency Tolerance @ 25 degC	± 50 ppm
Frequency Stability	± 50 ppm
Operating Temperature Range	-10°C tp +60°C
Equivalent Series Resistance	Please refer to table 1 below
Load Capacitance	16 pF (standard)
Drive Level	100µW

* Remarks : Please contact us for any further enquiry

Frequency Range, Equivalent Series Resistance and Mode of Oscillation (Table1)

Frequency Range (Mhz)	Equivalent Series Resistance Maximum (Ohm)
Fundamental	
6.000 ~ 7.999	80
8.000 ~ 9.999	60
10.000 ~ 15.999	50
16.000 ~ 50.000	40
Third Overtone	
28.000 ~ 84.000	60

Specification are subjected to change without notice.
